

Over 'n Over

Minelli

(I can feel it in my heartbeat)

Call me crazy, speak your mind
I'm fighting with the clouds above my sky
Sometimes I feel my body paralyzed
Looking for a way out

I can see the colors with my eyes
And I can change the darkness into light
That shit is like an echo
It hits you back, I let it grow
But I know I'ma be alright

I can feel it in my heartbeat and over my chest
Playing with me over 'n over again
Into my head and into my mind
Playing with me over 'n over again
I can feel it in my heartbeat and over my chest
Playing with me over 'n over again
Into my head and into my mind
Playing with me over 'n over again

I can feel it in my
In my in my in my mind
I can feel it in my
In my in my in my mind
I can feel it in my

I think you know what I'm talking about
Cause I'm sure you faced it too not once or twice
We're chasing wrongs instead of what is right
To fulfill our life

I can see the colors with my eyes
And I can change the darkness into light
That shit is like an echo
It hits you back, I let it grow
But I know I'ma be alright

I can feel it in my heartbeat and over my chest
Playing with me over 'n over again
Into my head and into my mind
Playing with me over 'n over again
I can feel it in my heartbeat and over my chest
Playing with me over 'n over again
Into my head and into my mind
Playing with me over 'n over again

I can feel it in my
In my in my in my mind
I can feel it in my
In my in my in my mind
I can feel it in my
