

Should Be Dancing

Mini Mansions

Lights on the town
Looking for a rise
Where we go search for thrills
Dressed to kill, popping pills
We're out of our mind
'Cause when we go out
I'd rather be inside
Where we can talk about
Laugh about, scream and shout

We should be dancing
We should be dancing
We should be dancing all night
With that jukebox calling your name
We should be dancing all night

And if it feels good
It's good for my mind
You're all mine
And if we talk about
Laugh about
Still freakin' out

We should be dancing
We should be dancing
We should be dancing all night
With that jukebox calling your name
We should be dancing

Nights never felt so alive
When you need love to survive
It's really got a hold on life
Well, you've got love in your eyes
When it comes as no surprise
It's really got a hold

We should be dancing
(We should be dancing) We should be dancing
(We should be dancing) You should be dancing all night
With that jukebox calling your name
We should be dancing

We should be dancing
Yeah
We should be dancing
Oh, we should be dancing
We should be dancing
Dancing all night
All through the night
We should be dancing
We should be dancing
