

## Works Every Time

### Mini Mansions

The sky is flashing like a zoetrope  
As the stars fall apart on the floor  
Gotta calibrate a telescope  
But I don't even know what I'm looking for  
Just a day in your life  
And I would die happily evermore  
But if you're spending the night  
Then what the hell is heaven even for?

I need to know how you show me  
(Something that I've never seen before)  
I need to know how you take me  
(Somewhere that I've never been before)  
I need to know how you love  
(Someone that I've never loved before)  
I need to know how you take it away  
(With a blink of an eye)  
Show me your trick  
It works every time

Skyscrapers on a sea of black  
Passing by as I fly to the sun  
Always said I better watch my back  
Then again that depends where you're coming from  
I let you into my world  
And now I'm staring down the Golden Gate  
'Cause if you won't be my girl  
Then what's the point of living anyway?

I need to know how you show me  
(Something that I've never seen before)  
I need to know how you take me  
(Somewhere that I've never been before)  
I need to know how you love  
(Someone that I've never loved before)  
I need to know how you take it away  
(With a blink of an eye)  
Show me your trick  
It works every time
