

All I was your Gemini  
Touché, counting down the only way we know

Cosign, kissing up to use and make it right  
If it takes us all night, nemesis' I don't wanna fight  
Because half the battle is in the bite

All I was your parasite  
Reflex, pornographic double hex

Low light, kissing up your secondhand device  
If it takes us all night, nemesis' I don't want to fight  
Brother Shot the alms,  
Low light, christen up the noose and make it tight  
Brother Shot the alms  
All night, nemesis' I don't wanna fight  
Because half the battle is in the bite
