Better Apart

Miniature Tigers

Standing in the mess we made
I don't know how it got this late
I don't think I wanna know
I'm always running out the door

I know that we deserve better
I need you but maybe we're just

Better apart, better apart
Don't say it's too heartbreaking
Better apart, better apart
It's never too late to change it

There are words we both could say
I don't want to talk, it's killing me
We shouldn't have to feel this way
I'm always trying to run away

I know that we deserve better
I need you but maybe we're just

Better apart, better apart
Don't say that it's too heartbreaking
Better apart, better apart
Oh it's never too late to change it

Can't make it together we're better apart
Can't make it together we're better apart
Can't make it together we're better apart
Can't make it together
Can't make it together

Standing in the mess we made
I don't know how it got this late
We break up every other day
We make each other pay
Is this the way?

Better apart, better apart
Don't say that it's too heartbreaking
Better apart, better apart
Oh it's never too late to change it

Can't make it together we're better apart
Can't make it together we're better apart
Can't make it together we're better apart
Can't make it together
Can't make it together

Oh better apart
Oh better apart
Oh better apart
Can't make it together
Can't make it together
