

You said "we'll never be friends"
But I don't think you mean that
You'll be upset for a while
And I'll just have to be patient
I hear beautiful music
Whenever you walk by
Baby I'm just a cockroach
Clinging to your light

You know I'd give you my world
If I thought it meant a thing
You know I'd give you everything
Everything
Round and around we go
On this torturous carousel of love
We both want to stay on
In spite of the world around us burning

There is something between us
It's always been that way
We were both in relationships
But that never stopped us did it baby
You were the first call I made
We talked for hours that first night
And me, in my usual way
Kept you away at an arms length

You know I'd give you my world
If I thought it meant a thing
You know I'd give you everything
Everything
Round and around we go
On this torturous carousel of love
We both want to stay on
In spite of the world around us burning

You know I'd give you my world
If I thought it meant a thing
You know I'd give you everything
Everything
Round and around we go
On this torturous carousel of love
We both want to stay on
In spite of the world around us burning

Round and around
Round and around
Round and around
Round and around
Round and around
Round and around
