

Oh depression  
Sweet sweet depression  
I wrote a record all about you  
And it still doesn't bring you back  
What you want me to say to that?

Hello darkness my bff I  
Haven't seen you in a long long time  
Did you think that you would  
Feel good forever  
Feel good feel good forever

No more tears over you  
If you ain't gonna cry some too  
Catatonic on the balcony  
Looking off into guilty sunsets

Hello darkness my bff I  
Haven't seen you in a long long time  
Did you think that you would  
Feel good forever  
Feel good feel good forever

I guess I'll stick around for you  
I know that I'm a fool, obviously  
If you don't feel the same that's cool  
You know that I'll be yours casually
