

Nobody Else

Miniature Tigers

It was easy, so easy, living in your life
Where I knew, where I knew, where I knew I couldn't stay
Felt so good to pretend I was somebody real for just one night
Knowing sooner or later you would see me in the cold daylight

I should sleep more and drink less
And find a better therapist
To fix me for someone like you

Nobody else but you

It was easy being nothing in your eyes
Yeah I knew where I stood, I knew where I stood at all times
Felt so good to believe that someone could see me how you do
Knowing sooner or later you would see me in the light of day

I'm coming apart at
The seams without you, baby

Nobody else but you
Nobody else but you

Didn't I give you all of my love?
Didn't I give you all of my love?
Didn't I give you all of my love?
All of my love

Didn't I give you all of my love?
Isn't that what you wanted babe?
You seem like you're over it, over it

Nobody else no, baby
Nobody else but you
Nobody else no, baby
Nobody else but you
