

Dive if you'd take her as your bride  
When she's wrong would you swallow all your pride?  
You shouldn't want that at your age  
No, you can't thrust and parry through your life  
You can't solve all your problems with a sword fight  
Swinging from a chandelier

Your tentacles are crushing me  
I'll come out when the weather gets nice  
I'll be damned if I'll make you my wife

You're wrong, it's not that I don't love you  
I do, but I'm too afraid to want you  
You only like me when I'm going away

You're sweet when you wanna be  
I'll come out when the weather gets nice  
I'll be damned if I'll make you my wife

Your tentacles are crushing me  
I'll come out when the weather gets nice  
I'll be damned if I'll make you my wife  
And as bad as I want you, get real  
I'm in love with your sex appeal, not you

Maybe someday I'll think of you and smile  
I'll think of you and smile  
I'll think of you and smile
