

Sex on the Regular

Miniature Tigers

I've got a fever of a hundred and ten
I'm comin' over, and over, and over again
There's no need for you to pretend
So come over if you want it and jump me again

I'm your shadow
And my heart is just nestled in your feathers

I've got your sex on the regular
It never felt so good
All that came before you
I never understood

Feels like I'm losing myself to you
Every time we touch
And still it feels like
I'm losing my virginity

Turn the lights down, let's give this a try
I'm looking at your body, there's no need to be shy
Breathing heavy, I'm fallin' for you
This is reality, whoa-oh-oh

I'm your secret
You can take me out and play me like a saxophone

I've got your sex on the regular
It never felt so good
All that came before you
I never understood

Feels like I'm losing myself to you
Every time we touch
And still it feels like
I'm losing my virginity

I've got your sex on the regular
It never felt so good
All that came before you
I never understood

Feels like I'm losing myself to you
Every time we touch
And still it feels like
I'm losing my virginity

Feels like I'm losing myself to you
Every time we touch
And still it feels like
I'm losing my virginity
