Wheat

Miniature Tigers

Lay me down in your golden fields
That I once thought were boring
Thought I could walk in this Earth alone
I'd already written the story

Thought of you as my friend
And I never believed you could see me
You could see me this way
I told you I was only happy sometimes
And you saw right through me

Oh you've gone and changed me, woman
You're so good to me
Can't believe you're real sometimes
You're so good to me

If it has to get real let's get real together
Without insecurities
And if I had the money I'd need you, feed you
Life with you could be easy

We'd make love on some beach
I could watch you eat
I could know everything there is to know
Oh but you baby you never noticed
You take me, wherever you go

You've gone and changed me, woman
You're so good to me
Can't believe you're real sometimes
You're so good to me

How'd I ever do without you
You're too good for me
You and me and you and me
You're so good to me
