

Deep In My Pockets

Mint Condition

When I first saw ya babe
I almost broke my neck
The way you wore that dress
Damn near finest thing I've seen
Then you asked me out
You showed what love was all about
Liked me the damn
I found out she wasn't takin' the pill

Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
Women tryin' to take my crib
Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
You tryin' to take my crib

You're a professional
Been in all the videos
Go where everybody goes
Your daddy must work for the FBI
Cause you knew where to find me
And you knew I had big money
But I told ya time and time again
I ain't no dummy

Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
Women tryin' to take my crib
Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
You tryin' to take my crib

Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
You tryin' to take my crib

I don't want ya babe (I don't want ya babe)
I don't need ya girl (I don't need ya girl)
I don't want ya babe
I don't like ya girl
I don't want ya around me no more

Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
Women tryin' to take my crib
Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
You tryin' to take my crib

Tryin' to get up deep in my pockets

Might as well just stop it
Cause I know the deal
Women tryin' to take my crib
Tryin' to get up deep in my pockets
Might as well just stop it
Cause I know the deal
You tryin' to take my crib

You ain't gotta go home baby
But you betta get the hell away from me
