

# My Time

Minus the Bear

Turn off the lights  
And touch me in the dark  
Fade into the feeling  
Whisper in my ear  
What you want  
What you need  
Tell me my name  
Tell me my name  
Again, again, again, again  
Just yell out my name baby

I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)  
My time  
I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)

You taste like sweet wine  
We are magnified  
The sweat rolls down your thigh  
Were making moves so blind  
It's what you want  
It's what you need  
I'm just the same baby

I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)  
My time  
I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)  
My time

And you're holding on to me like an old love  
That you know every inch of  
When I feel you start to go  
Take it slow, 'til your body's saying more...baby!

I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)  
My time  
I got your nights (I got your nights)  
I got your days (I got your days)  
I got you on (I got you on)  
My time

Gonna be on  
My time  
My time

I got your nights (I got your days)  
I got your days (I got you on)  
I got you on

My time
