Help me, hold me, when the cold night comes  
Every day, I'm smiling but I'm not really smiling  
Like a fool, I'm just standing here  
Will I ever be able to go back?

Dreams in my head  
That are like the blue starlight that can't be caught  
Will they fall?

Come to me, I cry so easily  
Your warm voice  
Shines a light on me  
Can't you hear me?

Don't be sick, don't be in pain  
Tell me, lovely you are  
Lovely lovely you are  
It's not over because we're together  
Tell me, from by my side  
Lovely lovely you are

Woo lovely lovely you are  
Woo lovely lovely you are

Thank you, thank you  
Each day without you doesn't feel like living at all  
In this dark place like an endless tunnel  
Will I ever go back?

Dreams in my head  
Like invisible, white smoke  
Will it scatter?

Come to me, I cry so easily  
Your warm voice  
Shines a light on me  
Can't you hear me?

Don't be sick, don't be in pain  
Tell me, lovely you are  
Lovely lovely you are  
It's not over because we're together  
Tell me, from by my side  
Lovely lovely you are

You're my star (You're my star)  
I'm your sky

Tell me, lovely you are
