

Don't Mind The End

Mipso

I'm on the long road, the less traveled
Taking time can get you a little rattled
Looks like I'm lost, feels like I'm here
Don't mind the end until the end gets near

Kill the lights when they're going insane
Roll down the window and listen to the rain
I like the feeling when a head gets clear
Don't mind the end until the end gets near

It's all right if voices in your head
Are telling you it's time to go
Still there is just one choice that you have
Close your eyes or take in the show

Later on with my feet off the ground
It's hard to sing when you're upside down
I can't hear, will you whisper in my ear
Don't mind the end until the end gets near
Don't mind the end though the end is here
