

## Get Out

Mipso

I hear the rain come down  
Stepped outside and opened up my mouth  
I've tried my best to leave this lonely Piedmont town  
Where I hear the rain come down

Some things never wash away  
Sink into your fingertips and stain  
Oh, I wanna take you with me  
But it's better if you stay  
Those things never wash away

I will fall into your open arms tonight  
I will whisper in your ear and everything will be alright  
I will count the hours and I'll hope you will understand  
That I will do the best I can  
To get out while I still can

No flame can heat this old house  
Candle falls, the flame burns out  
Can you step into my heart in time to cast these demons out?  
'Cause no flame will heat this old house

I will fall into your open arms tonight  
I will whisper in your ear and everything will be alright  
I will count the hours and I'll hope you will understand  
That I will do the best I can  
To get out while I still can

Get out while you can  
Get out while you can  
Get out while you can  
Oh, get out while you can  
Won't you get out while you can  
Oh, get out while you can  
I hear the rain come down
