

I Wait For Your Call

Mipso

I wait for your call
I'm pacing in circles around
I'm sick of this shit
I hope I can say it out loud

My mistake, carving hearts into the maple out back
Caution tape and chalk, a talking body bag

I wait for your call
I wait for your call

I wait for your call
You said we could turn it around
I played you a song
You told me to turn it down

My mistake, I heard you say you might not make it tonight
Now should I throw this rose away or watch it die?

I wait for your call
I wait for your call
I wait for your call
I wait for your call

Friends may pretend with the golden rule
Love's just a cover to be cruel

I wait for your call
I wait for your call
I wait for your call
I wait for your call
