

Moonlight

Mipso

I'm not a bird with a broken wing
I just felt like walking for a while
Such a shame to race through a pretty night
We've been high for a while now
It wasn't so much fun when it was coming down
Wondering how the clouds look from the ground

If you see me sometime soon
Looking pale and blue
That's just the moonlight
If there's silver in my eyes
I'll be fine
That's just the moonlight

In my mind's eye view it's you
You look up and offer me to smile
Something wild and weightless for a little while
I'll be down, you moving slow and easy
Just a long night on my own

If you see me sometime soon
Looking pale and blue
That's just the moonlight
If there's silver in my eyes
I'll be fine
That's just the moonlight

Well if awful thief [?]
Didn't take anything I need
Just a sleepless week
All things said it was easy
To dance and spin
Before we got this far
Picture of me, looking at you

If you see me sometime soon
Looking pale and blue
That's just the moonlight

If you see me sometime soon
Looking pale and blue
That's just the moonlight

If there's silver in my eyes
I'll be fine
That's just the moonlight
