

Amnesia

Miracle Of Sound

Amnesia

You've got the world on your shoulders
Innocence left you too soon

So young at heart but you feel so much older
Under your favourite full moon

So trust a little science, don't you be afraid
Just a little time gonna make it fade
Your heart is gonna shine
And you're gonna make us proud

Send a little light gonna shine for you
Things'll be alright, gonna get you through
Searchin' for a silver lining on this cloud

Amnesia Oh oh oh
You forgot your name
Don't let your spirit fade away
Amnesia Oh oh oh
You've been through such pain
But your little heart is growing stronger every day

Hey!
Don't fade away
Don't fade away

Amnesia
You've got this burden to bear now
Hiding away from the world
But deep down behind that disguise that you wear now
I see a lost little girl

So trust a little science, don't you be afraid
Just a little time gonna make it fade
Your heart is gonna shine
And you're gonna make us proud

Send a little light gonna shine for you
Things'll be alright, gonna get you through
Searchin' for a silver lining on this cloud

Amnesia Oh oh oh
You forgot your name
Don't let your spirit fade away
Amnesia Oh oh oh
You've been through such pain
But your little heart is growing stronger every day

Hey!
Don't fade away
Don't fade away

Under your favourite full moon...

Amnesia
You forgot your name

Don't let your spirit fade away
Amnesia
You've been through such pain
But your're growing stronger every day

Amnesia Oh oh oh
You forgot your name
Don't let your spirit fade away
Amnesia Oh oh oh
You've been through such pain
But your little heart is growing stronger every day

Hey!
Don't fade away
Don't fade away
So much stronger...

And when the world is on your shoulders
Stay
Don't fade away...
