

Bithday Present

Mirah

You make my everything okay
You make me feel this certain way
It's like an ocean, like a wave
It's like when morning lights the day

It only grows and grows and grows
You come to me when i'm asleep
You hold me close and it's so sweet
Somewhere between my head and feet
You make my alphabet complete

It only grows and grows and grows
If i were a planet in space
You'd be the astronaut who braves
My deserts and my lonely face
My axis holding you in place

It only grows and grows and grows
There is just one more thing to say
Happy birthday
