

Energy

Mirah

We only know that it's not that easy
When time together is gone
It's not for us to say how long
To say how good
To say how strong
We are turning in a night
To our lovers love light
For some holding on
For some good songs
And to reconcile all we will lose
'Cause we can't choose
No we can't choose
How the day falls
How the stars lift
We can just, we can't just give tenderness
Let's try to get old together
But even if we check the weather
We might never be prepared for what comes
But I'll take care of what I can
I'll give thanks to my parents
For giving me this body for my soul to breathe
It's in here that I keep making memories

I will hold on, I will hold on to these
For when our time together is done
And I feel so much love
For the people who come with me
Even when I've been kickin' and cryin'
When I'm mad and I'm burdened
And I'm feelin' uncertain
And I just want to lay down my mind
I'll wake up again
And a new day begin with more energy

I will hold on, I will hold on to these

And I feel so much love for the people who come with me
Even when I've been kickin' and cryin'
When I'm mad and I'm burdened
And I'm feelin' uncertain
And I just want to lay down my mind
I will wake up again
And a new day begin with more energy
