

Hot Hot

Mirah

If anything tries to hold you back we won't let it
We'll make it stop stop
We'll make it stop stop
Try to keep your tires on the road even when the wind picks up
You can keep it calm calm
Even if you roll on
You've got a good thing baby don't waste it, don't waste it no
Keep keepin' it hot hot
Keep keepin' it hot hot

If we were clouds we'd be makin' prisms of light
Holding up the rain all cool and bright
Wouldn't that feel good, wouldn't that feel so right?
Keep movin' along long
Keep keepin' up what you want

So when I heard that I heard that I could stay
And hold me and hold me so I'm safe
I like when I know me I'm okay
I'll get back to myself one of these days

You got the whole team on your side
We've got this one we do
We've got the life life
We keep the power on for you
If the clouds stay low
Oh sometimes they do
You just might get a little wet
Before they burn through

You know beauty comes with age
You can't help, but keep on
Getting more hot hot
With every brave thought
Hot hot
With every brave thought

So when I heard that I heard that I could stay
And hold me and hold me so I'm safe
I like when I know me I'm okay
I'll get back to myself one of these days
One of these days
One of these days
One of these days

Don't listen don't listen when they say goodbye
Gather up get on the porch take it on back girl take it on back
Keep your heart together
Get your mind relaxed
Step in time together
Let's feel the power coming back

Hot hot
Hot hot
Hot hot
