

# Jerusalem

Mirah

We celebrate the wars we won  
The blood of history's ancient sons  
We followed Judah Maccabee  
We fought against inequity  
We saved ourselves with help from one  
Who loves his children, every one  
Every one, every one  
Every one, every one

So now Jerusalem,  
You know that it's not right  
After all you've been through,  
You should know better than  
To become the wicked ones almighty god once saved you from

The lessons we should learn from all  
The fighting in the days of old  
When providence bestowed divine  
The sanctuary purified  
Let light encircle all you hold  
And don't uproot the olive grove

So now Jerusalem,  
You know that it's not right  
After all you've been through,  
You should know better than  
To become the wicked ones almighty god once saved you from

So now Jerusalem,  
You know that it's not right  
After all you've been through,  
You should know better than  
To become the wicked ones almighty god once saved you from
