Love Jetty

Mirah

We sit on rocks by the ocean
On the jetty and the sun so fine
The wind is strong and it blows in
And I'm holding on to you so tight

My heart is filled with emotion
I'm gonna be gone for a while
We know we're bound to feel lonesome
Even though we like to be alone sometimes

I got my bags packed
But I'm already counting the days
Until I get back home
When you drive me to the plane
I don't want to get on
I just want to stay
On the jetty with you

The sign say's keep off but we don't care
That sign couldn't keep us from climbing out there
We're just making some heat on a chilly day
Nobody follows the rules around here anyway

I got my bags packed
But I'm already counting the days
Until I get back home
When you drive me to the plane
I don't want to get on
I just want to stay
On the jetty with you

We sit on rocks by the ocean
Wasn't too far to get out here
My heart is filled with emotion
I'll sing it to you

Coast to coast I miss you
And I want you back
Oh I have to trick myself into leaving
Every time I go
But I'm gonna call you everyday
Just to hear to sing my name
I'll call you everyday
Just to hear you sing my name

The jetty is rocks rocks
But we're making it soft soft
The jetty is rocks rocks
But we're making it soft soft
