

## How Dare You Love

Miranda Lambert

Sometimes you read it like a school kid writing on chalkboard w  
alls

Sometimes it hits you like the water rollin' over Niagara Falls  
Cheeks get flushed like the first time buzz on Cabernet  
Boots on the bleachers, the edge of the seaters, just watching  
you entertain

You show up and put a spell on me  
Mmm, the nerve

How dare you love  
How dare you love  
How dare you love  
How dare you love

The needle and the ink, don't need to overthink, it's there for  
good  
Leave me you'd never, this is forever, knock on wood  
Tender in my chest, the hell with the rest, we're right as rain  
Rough around the edges, walkin' all the ledges, going insane

You show up and put your spell on me  
Mmm, the nerve

How dare you love  
How dare you love  
How dare you love  
How dare you love

You show up and put your spell on me  
What's it worth?

How dare you love  
How dare you love  
How dare you love  
How dare you love

What are we gonna do?  
What if we never run away?  
We never have to run away
