

Me and Your Cigarettes

Miranda Lambert

Gives you something you can do with your hands,
Makes you look cool and feel like a man,
In the morning you will probaly regret me,
Me and your cigarettes.

Started young now it's too late to quit,
Some call it a bad, bad habit,
Your momma told you you could end up dead with me,
Me and your cigarettes.

Always there everytime you need me,
It aint love but just like nicotine,
You're only addicted to a feeling you can only get,
From me and your cigarettes.

Light us up and throw us down,
Walk away when we hit the ground,
Hows it gunna feel when you come back around and see,
It's just you and your cigarettes.

Always there everytime you need me,
It aint love but just like nicotine,
You're only addicted to a feeling you can only get,
From me and your cigarettes
