

# Take It Out on Me

Miranda Lambert

These are the last words that I'll say to you  
You know damn well what brought it on  
I can't believe I've been a silly fool  
To let it go on this long

You never let life get you down  
'Cause every single time  
You take it out on me

You kick and scream your dyin' love for me  
Well, you don't win love in a fight  
The place you really need some victory  
Is by yourself alone at night

I left my picture on the bed  
So someone could be right  
Take it out on me

Take it out on me  
Or better still, you could  
Take it out on the passenger seat  
Where I used to be

I'm washing my hands clean  
'Cause that's what you need  
Take it out on me

You treated me like I was second hand  
Somehow I always caught the blame  
You'll never guess what I've been catchin' now  
A better man with a better name

You're left out in the rain again  
You can walk home in my shoes  
Take it out on me

Ooh, take it out on me  
Or better still, you could  
Take it out on the passenger seat  
Where I used to be

I'm washing my hands clean  
'Cause that's what you need  
Take it out on me

Ooh, take it out on me  
Or better still, you could  
Take it out on the passenger seat  
Where I used to be

I'm washing my hands clean  
'Cause that's what you need  
Take it out on me

Take it out on me
