

## To Learn Her

Miranda Lambert

to love her  
is to learn her  
and see her at her worst

dance with her when she's drinking  
hold her when she hurts  
she'll be happy you'll be sorry  
well that's just how it works  
to love her is to learn her  
somethings your just can't learn

you'll meet her momma  
you'll love her daddy  
you'll know how much shes worth  
you'll have thanksgiving dinners  
and sunday morning church  
you'll be true and you'll be tride  
but the tables always turn  
to love her is to learn her  
somethings you just can't learn

its a lesson  
its a blessing  
you don't know everything  
if you take her  
you might hate her  
and be left with just a ray  
to love her  
is to lose her  
hey thats just how it works  
to love her  
is to learn her  
somethings you just can't learn  
oh to love her  
is to learn her  
somethings you just can't learn
