

# Trailblazer

Miranda Lambert

Everybody needs a hero  
Somebody who can show 'em the ropes  
You gave a match like me a little kerosene  
With every song you wrote

I'm lucky to have someone to lean on  
When the weeds get high  
A little Louisiana twang and some Oklahoma rain  
And a heart that just won't lie

Oh, I know a cowgirl when I see one  
And I'm sure proud to be one

Talk about a trailblazer cuttin' one path at a time  
Runnin' like a dream chaser, livin' on a prayer and a rhyme  
You put a flag in the ground to a country sound  
To the rhythm of your own highway  
Talk about a trailblazer, I'm rollin' down the road you paved

I saw 'em on the Opry  
I heard 'em on the radio  
They taught me how to ride, how to hold on tight  
In this rhinestone rodeo

It was Dolly and Loretta  
Patsy and Tammy too  
They gave me a seat at the table  
So I'm savin' one for you

Talk about a trailblazer cuttin' one path at a time  
Runnin' like a dream chaser, livin' on a prayer and a rhyme  
You put a flag in the ground to a country sound  
To the rhythm of your own highway  
Talk about a trailblazer, I'm rollin' down the road you paved

God said, "Let there be country music"  
He made good ol' country girls like us to do it

Talk about a trailblazer cuttin' one path at a time  
Runnin' like a dream chaser, livin' on a prayer and a rhyme  
You put a flag in the ground to a country sound  
To the rhythm of your own highway  
Talk about a trailblazer, I'm rollin' down the road you paved

Oh, thank you, trailblazers, I'm rollin' down the road you paved
