

# You Wouldn't Know Me

Miranda Lambert

You wouldn't know me if you saw me here  
Wake up at your front door no more  
You'll never know me by asking how I've been  
You'll never keep up that way

Stop sign, stop sign  
That's all she threw at me  
'Til I don't feel like home no more

Wings on fire I caught side of a brand new home  
Married in your heels

I told her you wouldn't know me if you saw me here  
Wake up at your front door no more  
You'll never know me by asking how I've been  
You'll never keep up that way  
That's what I say

Bad news is better than what you've been handing me  
What's gone wrong with you my friend  
Promise me, promise me  
Don't laugh out at me now  
Won't you just send me some word

I told her you wouldn't know me if you saw me here  
I'm changing day to day, that's right  
You'll never know me by asking how I've been  
You'll never keep up that way  
That's what I say

I told her you wouldn't know me if you saw me here  
I'm changing day to day, that's right  
You'll never know me by asking how I've been  
You'll never keep up that way

Well you wouldn't know me  
You wouldn't know me
