

A Cappella Song

Miriam Bryant

Little voice big mouth
Talking about, walking out
Little heart big love
Your hand, my blood
Stay in touch, promise too much

We are dreams of heart

You smell like yesterday
Don't look at me that way
Go away

I wanted so much more
Needing you at all
Set to the floor
We closed the door

We are miles apart
Say hello to my moonlight
Sleeping tight

Never dreaming of
Being hit with love
Swallow the rain
Falling through pain

We stay
Stay the same
We are
Night and day

You caught the sky
With your sunshine
My bed, your night
No love in sight

Washed away the day
You forgot your shame
I picked it up today
And threw it away

We are
Night and day
We are
Night and day
