

Serendipity

Miriam Bryant

Everything I have done with you when we were young
Your eyes in summer sun like bullets from a gun
Through my heart and in my dreams,
I'm counting all the ways that you could leave
Safe inside in my mind, I'll make a memory, memories don't lie
I'll make a memory, memories don't lie

You called it serendipity

Take me back to the place you were gone without a trace
It is hard to believe tell me this is just a dream
Hide your secrets in the sand
Before all this falls out of hand
Falling two ways in kind
I'll make a memory, memories don't lie
I'll make a memory, memories don't lie

You called it serendipity
I call it the death of me
Fading to grey do you wanna be
Left out or circled in

I know we'll go down
Hide your secrets in the sand
And I will never understand
How this became my state of mind
I'll make a memory, memories don't lie
I'll make a memory, memories don't lie

You called it serendipity
