

## I'm With You

Miro Žbirka

Talk to me, come take a walk with me, I am your friend  
Don't be scared, we've got so much to share, good times to  
spend

We've got so much to say  
We've only got a day

When you mett in such a crazy street, it's a surprise  
Can't believe that we could both receive each other's eyes  
Start of a brand new dance  
Sang all the way to France

Takes a while for opportunity to be so true  
Certains smiles can make me run a mile, but I'm with you

Draw me down to your own loving sounds, I still can't wait  
We can please so many memories, it's not too late  
Don't have no time to lose  
Put on your flying shose

Takes a while for opportunity to be so true  
Certain smiles can make me run a mile, but I'm with you
