

Long Ago

Miro Žbirka

Long ago we could run
Used to reach for the sun
And then you changed your mind,
Discovering new ways
You know I couldn't find
The truth in what you said

Years ago Oh so close
Tried to head for the coast
But then the shadows came
And took you from my side
It was another game
Where you had to hide

The words you wrote,
It doesn't work
There's just a big divide
Will always hurt
My eyes

Long ago we were green
Never knew where we'd been
And then we changed our style
And vanished in the mist
Forgetting all the miles
That we drove to kiss

The words you wrote
