

# Nightmare

Miro Žbirka

Help me get through night  
Help me get through night

Help me get through night  
Baby, baby, hold me tight  
Help me get through night  
Say everything be alright  
Help me get through night  
'cos now I feel so insecure  
Help me get through night  
I can't stand it anymore

Help me get through night  
Come on, go on with my fears  
Help me get through night  
I'm drowning in my own tears  
Help me get through night  
Baby, baby, hold me tight  
Help me get through night  
Say everything be alright

Getting home for me to live  
Waiting for alone and soul  
Got a nasty feeling in my scumber  
Every night I'm so depressed  
And everybody puts me down  
I'm so glad that you're here  
That you're around

Help me get through night  
Help me get through night  
Help me get through night  
Help me get through night
