

## Songs Made Out of Love

Miro Žbirka

Take pieces of silver thread  
Join it into crazy lines  
Blonde hairs from your girlfriend's head  
Hey see how the summer shines

Songs made out of love  
Stay in your eyes  
There's always enough  
For a surprise

Small stones from the pea green sea  
Build them into busy towns  
Silk spices of mystery  
Keep happening all around

Songs made out of love...

Magic's so near, but hey you don't have to fear  
Well you can open us the door  
When there's taste, don't let it all go to waste  
Just keep on coming up with more

Dark rhythms of speeding trains  
Slip into the moonbeam grooves  
Might not come this way again  
That's how the best midnights move

Songs made out of love...
