

The love song

Miro Žbirka

Ami, C, Ami, C, F, C, F, C

Ami

First time that I saw you

C

I must have been hypnotized

Ami

There's something strange about you

C

Something strange about your eyes

F

You know I love you

C

It makes me cry inside

F

You know I love you

C

It makes me cry inside

First time that I met you

I knew you will be only one

And if I'm going to lose you

Baby, I just can't go on

'cos you know I love you

It makes me cry inside

You know I love you

It makes me cry inside

F

||:So, baby, don't you let me

C

Don't you ever let me down

F

'cos you're the only one I need

C

And I will always be around:||

First time that I saw you

I must have been hypnotized

There's something strange about you

Something strange about your eyes

You know I love you

It makes me cry inside

You know I love you

It makes me cry inside

First time that I met you

I knew you will be only one

And if I'm going to lose you

Baby, I just can't go on

You know I love you

It makes me cry inside

You know I love you

It makes me cry inside

So, baby, don't you let me...
