

What a Way To Go

Miro Žbirka

I always have to say that being swept away won't be so nice
Watching all the clips of the next apocalypse of wedding rice
Don't make me feel
Like a lover should
Just makes me sad
For the times we had

I've gotta shed a tear I always had a fear of falling out
Looking at the sky with rainbows in my eyes so full of doubt
Just makes me feel
Like the world's been sold
Memories of streets
That I need to keep

What a way to go
In the middle of a slow
What a way to leave
With no time to grieve
What a way to lose
What we should have used
What a way to go
What a way to go

..just makes me feel
Like the world's been sold
Memories of streets
That I need to keep

What a way to go
In the middle of a slow
What a way to leave
With no time to grieve
What a way to lose
What we should have used
What a way to go
What a way to go

I wonder what becomes just after all the drums have left the stage
If the ceiling doesn't fall before the curtain calls tomorrow's
page
As the dying light
Turns us into night
Just makes me sad
For the times we had
