

## What a Way To Go

Miro Žbirka

I always have to say that being swept away won't be so nice  
Watching all the clips of the next apocalypse of wedding rice  
Don't make me feel  
Like a lover should  
Just makes me sad  
For the times we had

I've gotta shed a tear I always had a fear of falling out  
Looking at the sky with rainbows in my eyes so full of doubt  
Just makes me feel  
Like the world's been sold  
Memories of streets  
That I need to keep

What a way to go  
In the middle of a slow  
What a way to leave  
With no time to grieve  
What a way to lose  
What we should have used  
What a way to go  
What a way to go

..just makes me feel  
Like the world's been sold  
Memories of streets  
That I need to keep

What a way to go  
In the middle of a slow  
What a way to leave  
With no time to grieve  
What a way to lose  
What we should have used  
What a way to go  
What a way to go

I wonder what becomes just after all the drums have left the stage  
If the ceiling doesn't fall before the curtain calls tomorrow's  
page  
As the dying light  
Turns us into night  
Just makes me sad  
For the times we had
