

Way Back Home

Misery Loves Co.

Blood red eyes under neon lights
Crashing down just feels so right
Under neon lights
So many streets, can't find my way back home

Heartbeat, concrete, the smell of loss
Heartbeat, concrete, the smell of loss
No love, dead rat, dreams we had
No love, dead rat, dreams we had
There's too many streets, can't find my way back home

Everyone falls alone
Reaching that all time low
There's too many lights, can't find my way back home
The only reason to stay is to dismantle and wash it away
There's too many lights, can't find my way back

All green, no soul, it's all for sale

The night shift psycho, it's you and me
Under neon lights
So many streets, can't find my way back home

Blood red eyes under neon lights
Blood red eyes under neon lights
No love, dead rat, dreams we had
No love, dead rat, dreams we had
There's too many lights, can't find my way back home

Everyone falls alone
Reaching that all time low
There's too many lights, can't find my way back home
The only reason to stay is to dismantle and wash it away
There's too many lights, can't find my way back
