

Old Ghosts

Misery Signals

Remember the dreaming nights
The start of it all
Remember the colors chased in Elver Park
Dreamweaver
Remember the fires
The battles fought under great, great spires
For when you left me
No, I could not see
With no sun or stars to guide me
Dream stealers
Open your eyes
Can't you see that this is our time?
Stay with me
You hold my heart
You hold my dreams

Old ghosts (Old ghosts)
Call our names (Call our names)
Would you
Call my name?
Dream stealer
Open your eyes
Can't you see
This is our time
To reach for the sun
And take back the night
Reach for the sun
Reach for the sun
You hold my heart
Stay with me
Hearts afire
(And) hearts aflame
Old ghosts (Old ghosts)
Call our names (Call our names)
