

# Redemption Key

**Misery Signals**

The stars never shined  
There was no light  
He lay in wait  
When darkness arrived  
This boy defined  
By words and nights  
Now lost in time  
Now lost to this wake  
Muses sing now  
Of false split tongues

Of words that were sung  
With two fingers ties  
Let this bring redemption  
Let this be the key  
Let this bring catharsis  
Let this bring peace
