

Death Ray

The Misfits

I can't take another stare from you
I believe that I don't care for you
I will wait for the end of me
Time is lost baby can't you see

I can see
The Death Ray
Within your eyes

I can see
The Death Ray
Within your mind

I can't take another stare from you
I believe that I don't care for you
I will wait for the end of me
Time is lost baby can't you see

I can see
The Death Ray
Within your eyes

I can see
The Death Ray
Within your mind

I can see
The Death Ray
Within your eyes

I can see
The Death Ray
Within your mind

I'll approach
I will see the light
I will pass much to your delight
Catch the ray deep inside my brain
I will live another day
