

## This Island Earth

### The Misfits

Furious the exodus walks  
Along the maddening march of death  
With the furor and the masses  
Whose supremacies is the dominion  
Alien bodies stiff and cold  
Your inner sane turns numb  
You transform into a rage  
Too naive to understand

And they go on as the sacrifice grows  
We're living on ground zero - fire!  
(This Island Earth!)  
Target locked, system checked, enter code  
We're living on ground zero - fire!

Locked up in a room  
Human beings in a cage  
The sentence a scienced death  
As they pull the trigger of ray guns  
Evil blackedned eyes of youth  
Absorbing life's hidden anguish  
Death thrown about the ground  
Or those who wouldn't fight

And they go on as the sacrifice grows  
We're living on ground zero - fire!  
Target locked, system checked, enter code  
We're living on ground zero - fire!

We're living on this island earth
