

# Here's To Everything (Ooh La La)

Misha B

Big words, big words  
Don't give a ...  
What you heard, what you heard  
Right turns, wrong turns  
We living for the whole world, whole world

Ooh la la la  
Yeah we jumpin' on clouds  
And we dance in the rain  
Ooh la la la  
When my world is on fire  
I dance with the flames  
Ooh la la la, la, la, la, la la la la la  
Here's to everything, here's to everything

Here we go like satelllites  
Chasing stars till we are blind  
Still we grow, we ignite  
Put your hand inna the sky  
Put your hand inna the air  
Ooh la la la, la, la, la, la la la la la  
Put your hand inna the air  
Here's to everything, here's to everything

Cloud 9, cloud 9  
We shining like fireflies, fireflies  
On a rise, on a rise  
We moving at the speed of light, speed of light  
De de de de dum, de de de dum dum  
If you wanna come, you better run, run  
On a rise, on a rise  
We moving at the speed of light, speed of light

Here we go like satelllites  
Chasing stars till we are blind  
Still we grow, we ignite  
Put your hand inna the sky  
Put your hand inna the air  
Ooh la la la, la, la, la, la la la la la  
Put your hand inna the air  
Here's to everything, here's to everything

Ooh la la la  
Yeah we jumpin' on clouds  
And we dance in the rain  
Ooh la la la  
When my world is on fire  
I dance with the flames  
Ooh la la la, la, la, la, la la la la la  
Here's to everything, here's to everything

Here we go like satelllites  
Chasing stars till we are blind  
Still we grow, we ignite  
Put your hand inna the sky  
Put your hand inna the air  
Ooh la la la, la, la, la, la la la la la

Put your hand inna the air  
Here's to everything, here's to everything

Here we go like satellites  
Chasing stars till we are blind  
Still we grow, we ignite  
Put your hand inna the sky  
Put your hand inna the air  
Ooh la la la, la, la, la, la la la la la  
Put your hand inna the air  
Here's to everything, here's to everything
