

Rock With me

Mishka

Ready?

Won't you rock with me For a little while Won't you talk to me
Love is in your smile

Oh, won't you rock with me For a little while I've been locked
in misery Livin' in exile

Oh baby It's not a perfect world But when I'm with you baby girl
Everything seems alright You really showed me your life Every
thing seems alright You really shine a light

So won't you rock with me For a little while Won't you talk to
me Love is in your smile

Oh, won't you rock with me For a little while I've been locked
in misery Livin' in exile
