

# Turn Back

Mishlawi

I come get my paycheck then I turn back  
They just dropped they knew shit I ain't heard that  
I walk in the function make 'em turn back  
I walk in the function make 'em turn back

Might take a vacation I deserve that  
I just came from London where the birds at  
I done came this far and I won't turn back  
I done came this far and I won't turn back

Came far from a seat in the back  
Calls on the phone want a feat for a track  
They hit me I don't ever holla back  
And a man talk hard I hit 'em with a bat  
I'm so straight up they zig-zag  
Y'all bring bitch home I brings bags  
So damn fresh they need a tic tac  
And I went Moscow brought home 8 racks  
Yeah y'all so sad  
Pay attention to the man  
Hate on me your girl is a fan  
I'm on top I ain't leaving again  
I ain't gotta say who I'm better than  
Except everybody in the mo'fuckin motherland  
There's no other one b-town empire ottoman  
6 foot 3 big beard like a talaban  
Serve rap fiends y'all sweet like cinnamon

I come get my paycheck then I turn back  
They just dropped they knew shit I ain't heard that  
I walk in the function make 'em turn back  
I walk in the function make 'em turn back

Might take a vacation I deserve that  
I just came from London where the birds at  
I done came this far and I won't turn back  
I done came this far and I won't turn back

I been out for days I been out all day  
Want me out the way but I'm on the way  
Think they gon' have to pick up the pace they want take my place  
I know they more careful what they say when it's face to face yeah yeah  
Y'all want talk my destiny  
But you can't sit next to me  
My new bitch on the gram for my ex to see  
My old bitch got a man at the embassy  
And my passport full reset for me  
I don't really need questioning  
Like I'll give in eventually  
Especially when losing intensity  
They tense to me but still try testing me

I come get my paycheck then I turn back  
They just dropped they knew shit I ain't heard that  
I walk in the function make 'em turn back  
I walk in the function make 'em turn back

Might take a vacation I deserve that  
I just came from London where the birds at  
I done came this far and I won't turn back  
I done came this far and I won't turn back
