

How's L.A.

Mishon

2012 it was summer time
Baby girl you was my ride or die
I got you whipping my Challenger
Tell me you love how I handle ya

'Member I flew your ass to the West
'Member us having jacuzzi sex
I blow out the pressure and I don't stress
Told her I missed her and she said

How's L.A.?
And I said everything, everything, everything
Everything but the seasons change
Oh-ho, yeah
Yeah

And niggas and bitches be switching up daily
But forest fires burning year round
Good gas, burning year round
It's so cal
Said it's so cal, yeah

How's L.A.?
And I said everything, everything, everything
Everything but the seasons change
Oh-ho yeah

Niggas and bitches be switching up daily
But forest fires burning year 'round
Good gas, burning year 'round
It's so cal
Said it's so cal, yeah

How's L.A.?

Yuh, look
Remember you told me to never change
Girl you the one told me to meditate, yeah
But lately I'm rocking these diamond chains
Getting all this money
Really starting to weigh
Tryna impress all the fucking lames, like woah
Girl you been so distant, I'm doing the same thing
I need to get back to Atlanta cause I miss that old thing
Am I chasing love or chasing the clout?
What's that about?
Went all these years with no doubt
Now I'm tryna figure out exactly-
What happened
Been flashing memories back then

'Member I flew your ass to the West
'Member us having jacuzzi sex
I blow out the pressure and I don't stress
Told her I missed her and then she said

How's L.A.?

And I said everything, everything, everything
Everything but the seasons change
Oh-ho, yeah
Yeah

And niggas and bitches be switching up daily
But forest fires burning year 'round
Good gas, burning year 'round
It's so cal
Said it's so cal, yeah

How's L.A.?
And I said everything, everything, everything
Everything but the seasons change
Oh-ho, yeah
Yeah

Niggas and bitches be switching up daily
But forest fires burning year 'round
Good gas, burning year 'round
It's so cal
Said it's so cal, yeah

How's L.A.?

I blow out the pressure, yeah yeah
I blow out the pressure, yeah yeah
I blow out the pressure, yeah yeah yeah
I blow out the pressure
