

## I Feel You

Mishon

You ain't the one to fall in love  
At least that's what you said to me  
You told me that you can never trust  
I wasn't trippin', girl, that's cool with me  
But I find it hard to believe that  
You don't want my love, 'cause you sayin'  
"Take all of me with your body"  
If I'm smart, I know what's next

You will fall in love

You keep making excuses  
Baby, they're useless  
You can't tell me nothin' I don't already know about you, girl  
But I feel you  
But I know the real you  
Don't need no evidence  
This love is evident  
Due to the circumstances is why you actin' different, girl  
And I feel you, whoa  
But I know the real you

Do you believe the lies you tell?  
Then why do you tell them to me?  
You say I'm too young and this would fail  
At 4 AM butt-naked next to me  
Don't talk yourself out your feelings  
Both of us know that your body be callin' me  
All of me  
'Cause there's more than just good sex

You will fall in love

You keep making excuses  
Baby, they're useless  
You can't tell me nothin' I don't already know about you, girl  
But I feel you  
But I know the real you  
Don't need no evidence  
This love is evident  
Due to the circumstances is why you actin' different, girl  
And I feel you, whoa  
But I know the real you
