

Mirage

Mishon

I never said we'd be together no no
But you had it made up in your mind it was me
You said that you wouldn't make this hard
But you know you had them feelings from the start ohh ohhhhh
We had our good times, yea it was fun
And I'd understand why you'd want more
Girl, it was never my intentions to hurt you or string you along
So...

I hope that this is just a crush
I hope that you didn't fall in love oh no
It seems I belong, you expected us to be
I need you to know that
The picture you made up, never be framed up
Something I can't see, no I won't entertain us
Cause baby this ain't love...
Oh ahhh

He gives you the world and you give it me
He can't have your heart because you gave me the key
So you went and found you a stand in to try and fit the role that
at you wish I play whoa ohhhh
Was it that trip to Kentucky
That made you feel like you loved me
Girl, it was never my intentions to hurt you or string you along

I hope that this is just a crush
I hope that you didn't fall in love oh no
It seems I belong, you expected us to be
I need you know that
The picture you made up, never be framed up
Something I can't see, no I won't entertain us
Cause baby this ain't love...
I hope it's just a crush!
